Minutes of past meetings	N/A		COL Enzel	Pending	<ul style="list-style-type: none"> <li>• Pending</li> </ul>
PCMN Database	20 Jun01		COL Enzel Rob Hengel	Info	<ul style="list-style-type: none"> <li>• Colonel Enzel is encouraging all MTF's to use the Patient Database to help track and update patient movement within the Pacific Region.</li> <li>• The originating MTF is responsible for initiating and closure of all patient episodes.</li> <li>• Since May 1, 2001, there have been 360 new patients added to the patient database.</li> <li>• Yokosuka has over 500 patient episodes that have not been closed out.</li> <li>• Outlook accounts were experiencing problems with sending and receiving of messages.</li> </ul>
Pacific Case Mgt System	20 Jun01		COL Enzel	Discussion	<ul style="list-style-type: none"> <li>• ICD-9, CPT and MEPRS codes are not being used to update clinical information in the Patient Database.</li> <li>• Tracking patients who travel commercial has been an on going problem for referring MTF's. We are still experiencing problems accounting for Active Duty soldiers leaving and returning to their originating MTF's.</li> <li>• Tripler's case managers experienced a complicated situation with a dependent son on the flight line. Provider information was withheld from both TAMC Case Managers and patient regarding hospitalization causing an emotional outbreak in the hanger. This event caused a two-hour delay in ground transportation for all other patients.</li> <li>• All ground transportation will be coordinated through TAMC case managers, to include those patients being transported to civilian medical facilities by AMR services.</li> </ul>
Next Meeting	19 Jul 01		COL Enzel	Info	<ul style="list-style-type: none"> <li>• The next call will be 19 July 2001. Minutes of this meeting will be posted on the TPLA webpage as soon as they are completed. If you have questions/problems contact COL Enzel/Rob Hengel via phone or email. Happy Holidays – be safe.</li> </ul>
